September 11, 2018
Solicitation No. 017.19.B5
Server Repair Services

Opening Date: September 14, 2018 Time: 2:00 P.M.

The following shall be incorporated into the captioned solicitation as though included in the original documents issued.

The Board of Education authorizes the following changes, clarifications and or attachments to the solicitation documents; however, such changes shall not relieve the firm of their responsibilities as otherwise required by the solicitation documents.

Questions:

1. Concerning Request for Proposal No. 017.19.B5, are we to infer that you require “per incident” support as opposed to a monthly maintenance charge for each piece of equipment listed in Attachment G? As the paragraph below reads, it seems to indicate “per incident” charges as opposed to a monthly maintenance rate on all applicable equipment....

3. Contractor Services, Duties and Responsibilities

3.1. General Description of Services. The Contractor shall provide on-site and off-site, out-of-warranty hardware repair services on an on-call basis for Dell server equipment owned and supported by HCPSS. Service shall minimally include repair service, testing, parts, and equipment replacement.

In other words, our company does not charge you for monthly maintenance, but rather charges you for each individual incident. Could you please verify how support is to be applied?

Response: There is a monthly charge and no per incident fee.

2. How long do the “old” servers need to be covered?
Response: All old servers need to be covered until disposition.
3. Are you utilizing any sort of contract for this purchase or is it open bid?
Response: This an open bid with the intention to award to one contractor.
4. Is there a previous contract for this equipment? If so, can you provide the contract number?
Response: Curvature, no contract number is assigned.
5. What was the cost of the last year's contract and is this the same equipment as last year's contract?
Response: Approximately \$70,000 for fiscal year 2018.
6. Is the contract available for viewing?
Response: There is a purchase order.

7. Is there a service/repair history report available?
Response: Not at this time.
8. Is all the equipment up and running?
Response: Yes.
9. Can you provide the listing of servers in Excel?
Response: See attached spreadsheet.
10. Need exact start date & end date of the main contract
Response: 11/01/2018 to 10/31/2019.
11. Pro-Rate items falling off DELL warranty to Co-Term to contract end date?
Response: 10/31/2019.
12. Pro-Rate items falling off SMS warranty to Co-Term to contract end date.
Response: 10/31/2019, two sets of expire dates (5/23/2019 & 7/31/2019).
13. Old Server scheduled to be replaced
Response: Coverage from contract start date (10/1/2018) thru 12/30/2018.
14. Items that are highlighted in Red for Warranty Expiration and have no warranty holder – are they to be no bid?
Response: Bid should be included in response.
15. Items with no serial numbers will be no-bid unless serial number are provided.
Response: Yes.
16. Is it HCPSS expectation that ALL items listed be quoted?
Response: Yes.
17. Please list physical locations of all racks.
Response: Everything on the CO list is at 10910 State Route 108, Ellicott City, MD 21043. Everything on the Dorsey list is at 9250 Bendix Rd., Columbia MD, 21045. The Other list is located at 9020 Mendenhall Court, Columbia, MD. As for the school list, see www.hcpss.org/schools/#direct for a list of all school addresses.
18. Will HCPSS take PPT pre-employment background check instead of theirs?
Response: That is the responsibility of the contractor to determine.
19. We need an exact model number and service tag to price line 160.
Response: See attached.
20. We need a sysconfig-a report to price the Netapp on line 188.
Response: See attached.
21. Do you have AVAMAR, if so we will need the grids.
Response: No, we do not use AVAMAR anymore. The name showed up in the spreadsheet as we re-used the Dell 2950's that use to run AVAMAR.
