The Howard County Public School System will only consider adjustments on labor rates based only upon federal minimum wage increases and decreases in the Consumer Price Index (CPI-W), Baltimore Region, as published by the Bureau of Labor Standards. Requested increases above a 10% cap will not be considered. In order to receive consideration for a price increase, the contractor must submit to The Howard County Public School System, sixty (60) days prior to the contract expiration date, a statement of any change in the hourly rate wage actually to be paid to its employees during the renewal term. Adjustments will be calculated by comparing the current index with the previous year's index so as to determine the change in index points. The point change will then be divided by the price index to obtain the percentage of change. The percentage of change will then be multiplied by .75 to obtain the adjustment to be applied to the current prices.
2. The Howard County Public School System will also consider adjustments based on fees outside of the control of the contractor, such as manufacturer price increases. However, such increases will be a "pass through" to the Howard County Public School System with no mark-up allowed. For such changes to be considered by the Howard County Public School System, documentation from the manufacturer (or any other applicable party) assessing a cost increase must accompany a written request from the contractor.
3. The Howard County Public School System will then review the request and advise the contractor of approval or disapproval of the price change request.
4. Price increase requests will not be considered if not accompanied with the proper information.

Excluded from the liquidated damage provision,

however, are any damages for loss of use of any facility of the owner that arises from a delay and the owner expressly reserves the right to claim damages for such loss of use. The contractor agrees that it has freely bid on this contract with the full and complete knowledge of the provisions for liquidated damages and waives all objections to such provisions as a penalty.

3. In addition, the owner shall assess and deduct from the contract sum any and all extra costs associated with maintaining the project (e.g. engineering fees, owner's overtime, etc.) for each calendar day of delay that the contractor extends substantial completion of the entire work beyond the completion date or time stipulated in the contract documents.
